### Schools Thrive When the Students Thrive!

We are thrilled as we open the gates for this year's SOF Olympiad registrations. Following last year's phenomenal participation from millions of students across 96,499 schools in 72 countries, we are filled with renewed enthusiasm and hope for this year.

If you also wish to showcase your school on an international level, and for your students to shine on a global platform, this is the right time to act!

**Don't Delay, Register Now!**

# SOF FORTNIGHTLY UPDATES

The countdown is on, only **3 months** to go before the 2025 Olympiad exams kick off. Get your students ready, and don't miss out on these details.

- **SOF registrations for all 8 SOF Olympiad exams have started for the new academic session 2025-26 April onwards.** [Check Here.](#)

Registrations for all 8 SOF Olympiad exams are open.

International Mathematics Olympiad (IMO)

International English Olympiad (IEO)

National Science Olympiad (NSO)

International Computer Science Olympiad (ICSO)

International General Knowledge Olympiad (IGKO)

International Social Studies Olympiad (ISSO)

International Commerce Olympiad (ICO)

International Hindi Olympiad (IHO)

Students may contact their school coordinator for details. Teachers & Principals may contact SOF Authorities at +91 9312680855, +91 9312680857, or +91 124-4951200 to get all the details.

- SOF welcomes entries from schools, parents, and students for the "Hall of Fame". This platform showcases the outstanding and well-rounded achievements of students. Recognitions will be featured on the SOF website, Facebook page, and in this newsletter. Please send us an email with your achievements, with proof and photos to [info@sofworld.org](mailto:info@sofworld.org)

### Breakthrough!

### Artificial Enzyme to Fights deadly blood clots

**A safer way to prevent dangerous clots!**

Scientists at Indian Institute of Science (IISc) have created a powerful metal-based nanozyme that mimics natural enzymes to stop dangerous blood clots, without the bleeding risks of regular drugs. Tested on human platelets and mice, it prevents clotting safely and effectively.

## GOOD NEWS!

### India Shines on Global Stage

#### Kush Maini Makes History at Monaco GP

On May 24, 2025, Bengaluru-born Kush Maini became the first Indian to win a Formula 2 race at the Monaco Grand Prix. Driving for DAMS Lucas Oil, Maini led the Sprint Race from start to finish on the iconic Monte Carlo circuit. His victory was celebrated with the Indian national anthem echoing through Monaco, marking a significant milestone for Indian motorsport.

1	3	5	9	7	8	6	4	2
8	7	9	6	4	2	5	3	1
6	5	4	1	2	3	7	8	9
3	2	1	7	8	9	4	5	6
9	8	7	4	5	6	1	2	3

## Turning Trash into Treasure!

### Artificial Photosynthesis Converts Organic Waste into Pharmaceuticals and Energy

Researchers at Nagoya University unveiled a ground-breaking method of artificial photosynthesis that transforms organic waste into valuable pharmaceuticals and clean energy. By utilising sunlight and water, this innovative process not only produces energy but also generates useful organic compounds from waste materials, offering a sustainable solution to both energy production and waste management.

This dual-purpose system could significantly reduce landfill waste while powering future cities with clean hydrogen. It represents a major step toward a circular economy powered by sunlight.

## TEACHERS' HELPDESK

### Empowering future Olympiad winners

Dear Educators,

You play the most critical role in shaping young minds for success, and Olympiads are the brilliant platform to ignite curiosity, discipline, and excellence in students. Here's how you can make a big impact this month-

- **Celebrate Small Wins**

Recognise every effort, whether it's completing a practice test, improving scores, or simply showing up consistently. Use praise in class, sticker charts, or even small certificates to boost morale.

- **Create a "Challenge Wall" in the classroom**

Dedicate a board to weekly brain teasers, Olympiad trivia, or Math puzzles. Encourage students to submit answers and feature their names when they solve them. Gamification works wonders!

- **Connect Olympiads to Real-Life Success**

Discuss how Olympiad skills like Logical Reasoning, Science application, and English proficiency link to careers in Engineering, Medicine, Research, and Public speaking. This helps students see the bigger picture.

### ALL YEAR LONG SOF QUIZ BIZ IS TAKING PLACE ON INSTAGRAM!

FOLLOW @sofquizbiz on Instagram and take part in daily quizzes for all subjects and all classes

## MYTH VS FACT

**Myth:** Trees are silent and don't communicate with each other.

**Fact:** Believe it or not, trees have their own secret "internet" underground. Through a vast network of fungi called the mycorrhizal network, trees share nutrients, send warnings about pests, and even help out their neighbours in need. It's like a hidden forest chatroom where trees support each other, proving they're far from being lonely or silent giants.

## TECH FOR TEACHERS

Empower your Olympiad learners with these effective, tech-friendly teaching strategies:

- **Deep-Dive Concept Workshops**-Organize focused sessions to explore advanced topics beyond the syllabus.
- **Micro-Goal Learning Cycles**- Break preparation into small, trackable goals with weekly online quizzes or check-ins.
- **Mentor Circles with Past Olympiad Achievers**- Host guest sessions or video interviews with former SOF participants for insight and inspiration.
- **Global Exposure Through Online Challenges**- Encourage participation in international contests.
- **Digital Resource Banks**- Create a shared drive or LMS folder with curated Olympiad materials, videos, and problem sets.
- **Engaging Parents Digitally**- Keep parents informed and involved through digital updates, webinars, or support materials.

## Global News!

### Expo 2025 Osaka: A Global Vision for a Better Tomorrow!

Expo 2025, currently taking place in Osaka, Japan, from April 13 to October 13, is a major international event themed "Designing Future Society for Our Lives." With over 150 participating countries and an expected 28 million visitors, the Expo is a platform for showcasing global innovations in sustainability, technology, health, and human well-being. It aims to address pressing challenges such as climate change, ageing societies, and digital transformation through collaboration and forward-thinking solutions. Expo 2025 isn't just an exhibition, it's a collective step toward building a smarter, greener, and more inclusive world.

## WHAT WOULD HAPPEN IF

### We Could Store Energy in the Air!

Scientists are developing **air batteries** that use oxygen from the atmosphere to store and release energy. These batteries are **lightweight, low-cost**, and could help power things like electric planes and green tech in the future. They even help **absorb CO<sub>2</sub>**, making them eco-friendly!

[Click Here](#) to know more

## Vocabulary Boost: What Is Petrichor?

Ever wondered why the air smells so fresh after it rains?

**Petrichor** is the word for the **pleasant smell** that comes when **rain hits dry** soil. It's caused by oils from plants and a natural compound called geosmin, made by soil bacteria. When rain falls, it releases these into the air, creating that unforgettable smell!

## DO YOU KNOW

### Your Brain Has No Pain Receptors!

You can feel pain in your head, but your brain itself can't feel pain. That's why some brain surgeries can be done while the patient is awake. Doctors can safely stimulate areas of the brain during surgery to test speech or movement, without causing pain.

## ASTRONOMY FACT

### What Is Absolute Zero?

Absolute zero is the coldest possible temperature [-273.15°C (0 Kelvin)]. At this point, atoms almost completely stop moving. Scientists can't reach it exactly, but they've come incredibly close, with NASA's Cold Atom Lab on ISS.

## DIY DIARIES: Powered Night Light

### Light from the Sun - A Simple & Sustainable Project

Want to explore how solar energy works while creating something useful and eco-friendly? This DIY Solar-Powered Night Light is a fun and educational way to reuse materials and learn about renewable energy at the same time.

#### You'll Need:

- 1 small solar garden light (available at hardware or gardening stores)
- 1 clean plastic jar or bottle with a lid
- Tape or glue
- Decorative items (optional – stickers, paint, etc.)

#### Step-by-Step Instructions:

- 1 Carefully disassemble the solar garden light to remove the top part (the solar cell and LED module).
- 2 Attach this solar module to the inside of the jar lid using tape or glue. Make sure the solar panel faces outward.
- 3 Place the lid back onto the jar or bottle. Decorate the outside if you like.
- 4 Leave the jar outside or near a window during the day to charge.
- 5 At night, the solar-powered light will automatically turn on your homemade, eco-friendly night light is ready.

#### What It Teaches:

- 1 How solar energy is converted to electricity
- 2 The basics of energy storage and LEDs
- 3 How to reuse everyday items in useful ways
- 4 Try making a few of these for your room, balcony, or as eco-gifts for friends!
